MISCELLANEOUS

EGG PRECIOUS METALS, LLC: As a practicing dentist I Maryland for over 40 years, I was appalled at the small amount of money paid to dentists for their scrap. Over 10 years ago I began paying my fellow dentists the true value for their scrap. I am licensed and certified in the state of Florida as a precious metals recycler and precious metal dealer. I personally come to you. I weigh the scrap and estimate its value, and give you an advance on the value. You receive a numbered receipt and personally take the scrap to the refinery. There, I watch the weight being rechecked and the scrap melted. It is then assayed and sold on the commodities exchange. I work with different refineries in the U.S. to get the best price for you. After sold, the remainder of your payment is in the form of certified bank check, and in some instances cash or wire. Contact Information: Edward Gutman, D.D.S.
